# A MYSTERIOUS CATASTROPHE

Three years ago, an award-winning research scientist, Dr. Edward Kirk, perished in an accident during one of his experiments. He had been working on the development of pure energy technology, code-named "Third Energy."

The unexpected explosion occurred soon after the government terminated funding of the research, assessing the process as non-productive. To most of the world, the entire incident was just an insignificant piece of news.

Earlier this year, a military agent sent to Ibis Island on a separate mission brought back surprising information. He reported that Dr. Kirk was alive and continuing his research at a military facility in the Borginia Republic.

Now special agent Regina heads for the isolated island. She is accompanied by her team, an elite task force specially trained to handle sensitive military situations. Each member is a specialist in a particular field.

Their assignment: infiltrate Ibis Island, find Dr. Kirk and return him unharmed to the home country.

It is supposed to be just another routine mission . . .

When Danger Events occur (see page 16), the map displays their location. Be alert, and target these areas for immediate exploration.

# USING EMERGENCY BOXES

Emergency boxes are installed on walls within the complex. They have a number of uses:

- They contain medical supplies that you can quickly access in case of emergency.
- You can store items in these boxes to keep Regina's carried supplies to a minimum.
- Once you unlock an emergency box, you can return to it later to retrieve or leave items.
- By using ACCESS from an emergency box, you can use remote boxes that you've unlocked, as long as they're the same color as the emergency box you're using.
- By using SORT, you can sort supplies in an emergency box and in the supply inventory.

Emergency boxes are red, green or yellow. You must obtain a different number of plugs in order to open each color type. When you attempt to open an emergency box, you'll be alerted to the number of plugs required for access.

To use an emergency box:

1. Walk up to it and press the Action button (default X) to open the box. A list of the emergency box contents appears on the top; Regina's supplies are listed below.
2. Press the D-Button up/down to move through the list; press left/right to turn pages.

To move items:

1. Highlight an item you want to move and press the Action button (default X). A space on the other list (either emergency box contents or Regina's supplies) will be automatically highlighted.
2. Move that highlight by pressing the D-Button up/down.
3. Press the Action button to make the move.
  - If the highlighted space contains an item, it is swapped with the item on the other list.
  - If NO ITEM is highlighted, a simple item transfer from one list to the other occurs.

## D.D.K. DOOR LOCKS

Some doors in the complex are locked by a D.D.K. (digital disc key) device. To open a D.D.K. door:

1. Find both a code disc and an input disc. Use the discs at the device next to the door.
2. Decipher the code and input the answer.
  - Use the D-Button to select letters/numbers.
  - Press the Action button to enter a selected character. To erase a character, highlight DELETE and press the Action button.
  - When you finish inputting, select ENTER. If the answer is correct, the door unlocks.

# COMBAT KNOW-HOW

## WEAPON LOSS

During an attack Regina's weapon may be knocked out of her hand. When this happens, a blue arrow points toward the weapon. Move Regina close to the weapon to retrieve it.

## FORCE FIELDS

Force fields throughout the complex can be activated to block access by intruders. When a force field is on, its red beams block the passage. Lighted green switches may be force fields that are turned off.

To activate/deactivate a force field:

1. Move Regina up to the control switch and press the Action button. A message asks if you want to turn the force field on or off.
2. Highlight YES and press the Action button to change the status of a force field.

## DANGER EVENTS

When "DANGER" flashes on screen, a dangerous event is occurring. Immediately tap all the controller buttons (except START and SELECT) as rapidly as possible. The faster you tap, and the more buttons you repeatedly press, the better chance you have of surviving.

## DAMAGE

Regina takes damage when she's attacked by enemies. Her condition will deteriorate according to how much injury she suffers.

### PHYSICAL CONDITION

Watch Regina's motions to determine how much damage she's taken. The weaker she appears, the more she's hurt. Use a med pak (see page 11) to heal these types of injuries.

### BLEEDING

A trail of blood will sometimes appear, indicating your character is bleeding from her injuries. If this continues, Regina will gradually lose her strength. Use a hemostat (see page 11) to stop bleeding.

# END GAME SCREENS

## GAME OVER

When Regina's strength ebbs away to nothing, she dies. The game is over, but if you have Continues available, the Continue screen appears.

## CONTINUE SCREEN

Select CONTINUE from this screen to resume your game at the room in which Regina died. The number of Continues is limited to five.

## EXIT

Select EXIT to quit the game for good and return to the title screen. If you have no Continues left, this is your only option.

## REGINA

An elite member of a special task force, Regina is a weapons specialist. She is excellent at handling all firearms. Modifying weapons is her hobby.

Regina is agile and excels at stealth actions. She analyzes all situations and takes action based on her good judgment.

## DR. KIRK

Research scientist Dr. Kirk was reported to have died in a lab explosion three years ago. Though young, Dr. Kirk is an authority on energy technology. When the explosion occurred, he was experimenting with the ultimate clean energy known as "Third Energy". This egocentric genius is totally focused on his research and doesn't care how it might affect society. He is selfish, highly emotional, and unable to separate wrong from right. He'll stop at nothing to complete his research.

## GAIL

An experienced veteran working with Regina on this mission, Gail has developed an impressive reputation based on his icy judgment and strong will.

For him, a mission is a game of chess, and everything in it – including team members – is a tool to be manipulated at will.

## RICK

Rick is gifted with numerous special abilities including computer expertise, medical knowledge and heavy equipment/ vehicle operation. He is humane and always puts his team members first. His compassion for friend and foe alike sometimes presents an obstacle to completing a mission.
